

Capacity - Billability ?

The Billability is proportion of available time your team spends on **billable work**. It is a key metric influencing the overall profitability of your organization.

$$\%Billability = \frac{billable}{availability}$$

Billable work is defined as an allocation with the Contract Type tag set to *Client* or *Opportunity* in the [Capacity Planner](#).

You want to bring Billability as close to 100% possible, although it is expected for your team to spend some amount of time on non-billable tasks (admin, internal projects, etc...).

Interpretation

- **High Billability** means that your team is busy working for clients.
- **Low Billability** can mean a few different things:
 - That there's simply not enough billable work planned for your team.
 - You have planned for too much internal work.
 - That the Capacity Planner is not updated with the latest [Resourcing Requests](#) from the [Sales Team](#) on signed deals or [Project Managers](#).
 - A combination of the above.
