

Resourcing Request

Sending a Resourcing Request is a way of booking a set of human resources for future work. It is a compilation of allocations for a period of time: someone working on something for a certain number of days over a period of time.

In Conduite, Resourcing Requests are sent in 2 instances:

- **During the Business Development phase** when the Sales Team wants to book resources ahead of the signing of contract. They do this directly from the Budget Builder using the Send Resourcing Request Addon feature.
- **During the project execution phase** when Project Managers send their Project Report Out to update the Capacity Manager on how much capacity they need to finish the project.
