

Resourcing Request

Sending a Resourcing Request is a way of booking a set of human resources for future work. It is a compilation of [allocations](#) for a period of time: someone working on something for a certain number of days over a period of time.

In Conduite, Resourcing Requests are sent in 2 instances:

- **During the Business Development phase** when the [Sales Team](#) wants to book resources ahead of the signing of contract. They do this directly from the [Budget Builder](#) using the Send Resourcing Request Addon feature.
- **During the project execution phase** when [Project Managers](#) send their [Project Report Out](#) to update the [Capacity Manager](#) on how much capacity they need to finish the project.
